

Guest Lecture in Zoology

Guest Lecture:
**NFAT2-Siglec-15-DAP12 axis is essential for
formation of functional osteoclasts**

FREE

Assistant Professor Norihiro Kitagawa
Laboratory of Gene Regulation Research
Nara Institute of Science and Technology (NAIST) Japan

Tuesday, 10 October 2017
Reading Room (Ruang Baca) Department of Biology IPB
08.30 - 11.00 WIB

 Organized by:
Department of Biology IPB and Nara Institute of Science
and Technology 

     
bioipb

Guest Lecture: "NFAT2 -Siglec-15-DAP12 axis is essential for formation of functional osteoclasts"

by Assistant Professor Norihiro Kitagawa of Nara Institute of Science and Technology (NAIST), Japan

Tuesday 10 October 2017

at Reading Room (Ruang Baca) Departemen Biologi

08.30 - 11.00
