

ICOBIO 2025: Final 48-Hour Extension for Full Paper Submission

In response to numerous requests and to accommodate authors needing additional time to finalize their work, the ICOBIO 2025 Organizing Committee has decided to grant one last and final extension for full paper submissions. This final submission window will be open for a strict 48-hour period to ensure all participants have a final opportunity to be included.

Submissions will be accepted only on **Saturday, June 14th, and Sunday, June 15th, 2025**. All authors must submit their manuscripts through the official portal, which will only be active during this two-day period: <https://ipb.link/fullpaper-submission-icobio2025>. We urge all authors to finalize their papers accordingly, as this deadline is firm and the portal will not be reopened after this date. We appreciate your understanding and cooperation.
