

Biofarm: Let's Plant Together

Sunday, 29th March 2015, Bioworld, one of [Himpunan Mahasiswa Biologi \(Himabio\)](#) division held yearly event named Biofarm. This event was participated by several student of Department of Biology in Parking Park of Faculty of Animal Science. The event theme was to express the art in the form of 'green' graffiti and xerophyte collecting. In this event, student learn about moss graffiti making, plant vegetative growth, simple verticulture, and cactus – xerophyte collecting. Plant vegetative growth and simple verticulture learning process was guided by [Mafrikhul Muttaqin M.Si.](#). Also, [Achmad Alfiyan](#) was explained about moss graffiti and cactus – xerophyte collecting. After the event, some of student product was placed in several places in Department of Biology, then, more greener we are.
