

Congratulation! Students Got Medal in a National Business Plan Competition

Again, Department of Biology student shining the brilliance at a national level competition. [Apip Nurdin](#) (BIO 49) and team (Afif Arwani - ITP 49 and Yusrizal - KIM 48) was awarded as 3rd Place Champion of the National Business Plan Competition that is part of the National Economic Diponegoro Festival (Defest) held by BEM FEB Undip. The main theme of the competition is "Optimization of the Village Potential towards National Economic Independence".

[Apip](#) and team proposed Rhizoblend, a juice made from tempeh and pineapples extract, to be competed in the Business Plan Competition. In their proposed work, they are trying to improve the economic condition of Rhizoblend raw material producer village along with the Rhizoblend production. In the end, their hard work rewarded with medal. Congratulation!
