

From Kasetsart to Bogor

Kasetsart University (KU), Thailand team visited the Department of Biology, Faculty of Mathematics and Natural Sciences, Bogor Agricultural University (13/02). The KU visit was part of international cooperation of Department of Biology which was initiated since 2013. Until now, student exchange and joint supervision activity between Department of Biology and KU (Faculty of Sciences) has been established.

On this occasion, KU team introduced KU international program in the event titled "Presentation of International Program in Faculty of Science, Kasetsart University of Thailand" at Auditorium FMIPA. In addition, a presentation of the activity of the IPB-KU FIRST Graduate Student Exchange Program (2015), and the Student Exchange Program of International Undergraduate Program of Bioscience and Technology (2016) also included.

After the activities at the FMIPA Auditorium, KU delegates visited the secretariat of the Department of Biology and several research laboratories at the Department of Biology. The last activity was a discussion with the Dean of FMIPA.
