

A Protein Expert Came to IPB

Today, Assoc. Prof. Susumu Uchiyama of Osaka University Japan stands in front of dozens of Bogor Agricultural University students. He, who is part of Department of Biotechnology, Graduate School of Engineering, Osaka University, Japan, explains all about protein science.

In the event held in Auditorium FMIPA, he was able to deliver proteomics knowledge from its basic sciences towards the equipment needed to learn proteomics. He also mentioned about chromosome proteomics as well as how to extract it.

The guest lecture event that is part of World Class Professor Program Scheme A was organized by Tropical Biopharmaca Research Center LPPM IPB and [Departement of Biology](#).
