

# The 3rd Summer Course : The Bio-geology of Belitong Geoparks.

Department of Biology,  
IPB University proudly present :

## “The 3rd Summer Course on Biogeology of Belitong Geopark”

**Belitung, 13-18 July 2020**

**Location (Geosite)**  
Peramun Hill Granite Forest  
Batu Baginde  
Kerangas Cendil Forest  
Nam Salu  
Hoping Island  
Terong Tourism Village

**Explore, observe, and discuss the following topics with notable experts.**

1. Field study on biodiversity of coastal and wetland area
2. Intensive courses on tropical marine biodiversity
3. Study on the environmental impact of mining

**Registration**  
Early Bird 500 USD (until March 31st 2020)  
Late Bird 700 USD ( April 1st - July 1st 2020)  
Payment by Bank Transfer to :  
BNI (Bank Negara Indonesia)  
REKTOR IPB C/Q KS-FMIPA 3898498

**Cost Coverage**  
1. Accommodation (Hotel and Meals) for 6 days, 5 nights  
2. Local Transportation  
3. Health Insurance  
4. Certificate and Program Book

**Registration Form:**

[belitonggeopark.net](http://belitonggeopark.net)    1st Summer Course    2nd Summer Course

**Organized by:**

**Supported by:**

Department of Biology, Faculty of Mathematics and Natural Sciences, IPB University cordially invite you to join The 3rd Summer Course : The Bio-geology of Belitong Geoparks.

This program offers a particularly unique opportunity for understanding the relationship between biological diversity and geological diversity of various geosites in Belitong island. During the event you may also enjoy the breathtaking natural sceneries of Belitong

island.

Many notable experts will join as facilitator to give step-by-step guide in observing bio-geo-diversity.

**Place and Date :** Belitung, 13-18 July 2020

**Location (Geosite) :**

1. Peramun Hill Granite Forest
2. Batu Bedil
3. Bukit Koale
4. Batu Baginde
5. Kerangas Cendil Forest
6. Nam Salu
7. Hoping Island

**Agenda :**

Explore, observe, and discuss the following topics with notable experts.

1. Field study on biodiversity of coastal and wetland area
2. Intensive courses on tropical marine biodiversity
